- Huge variety of Fruit
- Beautiful Spring Bulbs
- Veg & Flowers  
for Autumn sowing
- Mushrooms & Garlic

# We are Britain's biggest Sweet Pea producer for the home gardener

After over 130 years Sweet Peas are still a major part of Kings Seeds' business with over 150 individual colours in our main catalogue. Our company policy has also remained the same, to provide the finest seeds, realistically priced, backed-up by good, old-fashioned service and advice.

## King's expert, Peter Miller, gives you his tips for growing perfect Sweet Peas

*"Seed sowing can begin in October, through to late February, but I find the optimum time is early November. Sow 5 seeds into a 7.5cm (3") deep pot, using a good growing medium.*

*Keep in a cold frame, do not let the soil dry out but do not over water. In my experience I have found that chipping and soaking the seeds is not necessary. When the plants have grown 3 pairs of true leaves, pinch out the tops to encourage side shoots for the promotion of greater flower production. Harden off, prior to planting out in early April, (weather permitting) and feed with foliage or soil dressing at fortnightly intervals. Direct sowings during October or March can also be made in the flowering site."*

# Autumn extras

## Bulb Planters

Simply push the planter into the ground, twist 3 or 4 times. Remove and place bulb in the hole, press red plunger to eject soil back into the hole. Bulb planting made easy! Heavy duty black powder coated for longer life. Also ideal for potatoes.

**Hand bulb planter 46094** £17.95

**Long handled 46095** £29.00

Push-button handle lock with soft-touch grips to protect the hands.

## Ratchet Lopping Shears

Extending handles allow you to reach high branches. The blades incorporate relief holes to reduce the pressure when cutting. 100mm cutting capacity. 12 month guarantee.

**45980** £30.00

## Greenhouse Shading

Control the amount of sunlight in the greenhouse and reduce temperatures during the summer months. Simply applied by brush or sprayer. Easily removed when the weather turns dull. Sufficient to cover two 6ft x 8ft greenhouses.

**500ml 45180** £8.00

## Rootrainers - perfect for Sweet Peas

An ideal growing container to start off young plants. They encourage the formation of long straight healthy root growth and the easy-hinged opening system allows the maturing plant to be extracted without any damage. Available in packs of 2 trays and 4 trays each tray containing 32 chambers. They will give your young plants the start they need.

**USEFUL TIP:** Use to grow broad beans and runner beans later.

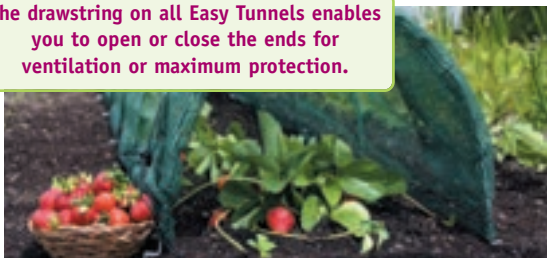

**1 pack of 32 cells 46063** £14.10

**2 packs of 32 cells 46002** £19.35

**4 packs of 32 cells 46003** £33.25

The drawstring on all Easy Tunnels enables you to open or close the ends for ventilation or maximum protection.

## Easy Net Tunnel

Top quality high density polythene netting (5mm mesh) protects from birds, insects, rabbits and other pests. Also makes an excellent wind break as well as shading from strong sunlight. 3 metres long x 45cm wide x 30cm high.

**43967** £19.35

## Easy Fleece Tunnel

High grade 30g per square metre polypropylene fleece. Creates warmth and insulation whilst allowing water and sunlight to filter through. Protects from frost, strong sunlight and pests. 3 metres long x 45cm wide x 30cm high.

**43982** £19.35

### Big Drippa Watering System

All the benefits of drip watering at a budget price.

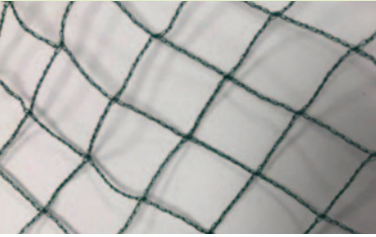

Pack contains:

- 6 adjustable drippers
- 5 metres (16') of water tube
- 2 gallon water reservoir

Suitable for hanging baskets, plant trays and greenhouse.

48132

£13.30

### Anti-bird Netting

Ideal for covering fruit cages. Resistant to UV rays, mildew and decay. Strong, light-weight and flexible. Prevents birds attacking fruit. Can also be used as a barrier to deter birds settling on buildings. **While stocks last.**

4m x 50m 45195

£69.50

### Flexi Balls

Flexible rubber-like balls can be used as a universal joint in the construction of plant supports, cloches and fruit cages, etc. Simply cover with netting, fleece or fruit cage netting. The six holes will take a range of different size canes or metal tubing, from the very thin end of an 8' cane to the very thick end, up to 13mm (1/2") dia.

## Rotary Line Cover

Keep your rotary washing line clean when not in use. Cover is in tough woven polythene, dimensions 175cm (69") long x 56cm (22") circumference.

**46085**
**£6.80**

## Green 3mm flexible tie

Flexible tie that grows with your plants, very strong and holds a knot without slipping. Reusable and frost proof. 40m x 3mm dia.

**46265**
**£6.10**

## Hand Leaf Grabs

Fill your leaf sacks in half the time with these oversized hands. Good for scooping up any garden debris. Light-weight and fits any garden hand. 15"x15"x3".

**46025**
**£8.50**

# Wallflower plants to brighten up your garden

For spring and early summer colour there is nothing to compare to a bed of wallflowers. UK grown and hand graded.

They are ready to plant straight away in a sunny spot.

Planting Wallflowers as bare root plants in the autumn is the traditional way, they produce much stronger results earlier in the spring.

**On top of that, Wallflowers are bee-friendly!**

**My Fair Lady**

#### **Our bare root wallflowers**

- ✓ Despatched from mid October ready for planting straight out.
- ✓ Flowering season from March to May.
- ✓ Fully Winter hardy perennials.

Your wallflowers arrive to you carefully packaged.

**Persian Carpet Mixed**

#### **My Fair Lady**

All the fragrance and flower power of a traditional wallflower but in a mixture made of more pastel shades.

**20 bare root plants**

**(2 X 10 plants per sleeve)**

**97276**

**£9.05**

#### **Persian Carpet Mixed**

Specially selected coloured shades of apricot, gold, orange, purple, cream and rose. Ht 40cm (16")

**20 bare root plants**

**(2 X 10 plants per sleeve)**

**97275**

**£9.05**

**Postage and Packing £3.50**

**Last Order Date 30th September - Delivery Mid October**

Finesse

Sweetheart

Elegance

NEW

Marshmello

## Strawberries

Specially grown by one of Britain's leading soft fruit plant producers and are **confirmed virus and disease free**. Only the best varieties are chosen to give quality fruit and high yield.

### ALL SEASON

#### Finesse

(Modula raised plants not runners)  
Best everbearing on the market, offering gardeners the very best in fruit quality. Heart shaped fruits with a juicy texture and sweet flavour. Robust and disease resistant.

**DELIVERY MARCH ONLY.**

**6 modules 93082 £11.90**

#### Flamenco

An everbearing variety with exceptional quality and good yields. Medium to large, glossy orange fruit with an excellent flavour. Peak production early September.

**12 plants 93015 £15.40**

### EARLY SEASON

#### Royal Sovereign

A traditional old variety which is classed as heritage, well over 100 years old. It has a reputation for fruit quality and a superb old fashioned taste. This variety was served to the queen at her coronation banquet.

**12 plants 93073 £12.75**

#### Sweetheart

One of the best garden varieties introduced in recent years. Wonderful traditional sweet flavour as the name suggests. Will produce a bumper crop. Good disease tolerance, certainly one to impress!

**12 plants 93107 £13.65**

### MAIN CROP

#### Elegance

Exciting main season variety. Sweet taste with a juicy pleasant texture. Very high yield of excellent fruit.

**12 plants 93030 £12.75**

#### Malling Centenary

Bred by East Malling the home of British strawberries. Plump and juicy with a firm texture, superb sweet flavour with perfect conical shaped berries.

**12 plants 93106 £13.65**

#### Marshmello **NEW**

Early cropping with strong vigorous, large crowned plants with excellent disease resistance. Superb flavour. *Certified Grade A.*

**12 plants 93257 £13.65**

### MID-SEASON

#### Cambridge Favourite

Excellent disease resistance and a vigorous free runner habit make this an easily grown variety that crops well under a wide range of conditions. Medium size fruit which hangs well on the plant. **THE BEST FOR JAM MAKING.**

**12 plants 93005 £13.65**

#### Elsanta

Medium to large firm orange-red fruits. Superb fruit quality making this still one of the UK's favourite choices.

**12 plants 93113 £13.65**

### Sonata

Firm large fruit, which are produced over an extended season. Very sweet and juicy with glossy skins. Good resistance to powdery mildew.

**12 plants 93002 £13.65**

### LATE SEASON

#### Fenella

Large juicy berries with an average weight of 15g and a glossy waxy skin. Excellent distinctive sweet flavour and mildly aromatic. Exceptional disease and weather resistance, crops well even on poorer soils.

**12 plants 93031 £13.65**

#### Malwina **NEW**

Firm large fruit, which produce glossy dark red, firm berries that have a lovely aroma. The berries are large to **VERY** large, late cropping. *Certified Grade A.*

**12 plants 93041 £13.65**

**Mulch Mats**  
Retain moisture and warmth and protect crop from rain splashes  
**PERFECT FOR STRAWBERRY PLANTS**  
see page15

### How to plant strawberries

Plant 40-45cm (15-18") apart. We recommend that every 2-3 years a new bed is planted up with new certified plants to maintain quantity and quality of the fruit. Full growing instructions are included with every order.

# Raspberries

Please note that all fruit is sent separately from other goods

## EARLY SEASON

### Glen Carron **NEW**

Early to mid-season, cropping over a 4 week period. Large, bright glossy red fruit, very sweet taste with low acidity. Spine free canes. *Certified Grade A.*

6 canes 93260 **£13.60**

12 canes 93261 **£20.55**

### Glen Coe

Specialist variety, which is the result of a cross between a black raspberry and Glen Prosen. Deep rich purple fruits with an excellent intense flavour. Thorn free.

2 litre pot 93074 **£14.50**

## MAIN SEASON

### Tulameen

Long season, produces attractive, glossy fruit with excellent flavour. Large firm berries on easily managed canes up to 2m.

6 canes 93208 **£13.60**

12 canes 93022 **£20.55**

## MID to LATE SEASON

### Autumn Treasure

Autumn fruiting primocane, with spine free canes which are erect and self-supporting with 3.5-5g red berries.

6 canes 93205 **£14.70**

12 canes 93034 **£24.05**

## MID-SEASON

### Glen Ample

Exceptional with large red fleshy fruits, attractive in colour. The fruits 'hold' well on the erect spine-free canes. Good virus and aphid resistance with a superb flavour.

6 canes 93202 **£13.60**

12 canes 93006 **£20.55**

## MID to LATE SEASON

### Joan J

High yielding, large fruiting primocane variety, deliciously juicy and sweet-tasting berries. If you want to pick a supply of raspberries when other soft fruit is over, Joan J is the answer.

6 canes 93206 **£14.50**

12 canes 93060 **£22.75**

### All Gold

Large, yellow fruits with an exquisite sweet flavour. Harvest from late August until mid-October. These tall primocanes are perfect for smaller gardens where they can be grown in a large container. Self-pollinating and canes are spined.

6 canes 93204 **£13.60**

12 canes 93064 **£20.55**

Please choose your **PREFERRED DELIVERY TIME** for ANY SOFT FRUIT

Order before **31 October** for an **Autumn** delivery.

Order before **28 February** for a **Spring** delivery

## AUTUMN FRUITING

### Polka Primocane

Premium quality, medium red fruit with firm skin. Crops well, top for flavour at fruit shows. Highly recommended.

6 canes 93207 **£13.00**

12 canes 93008 **£19.45**

# Gooseberries

Captivator

Invicta

## How to plant gooseberries

Plant the 2-year-old sturdy plants 1.5m (4.5ft) apart. We recommend you plant your bushes during November. Full growing instructions are included with every order.

### Gooseberry Planting and Cropping Times

Plant	Crop	O	N	D	J	F	M	A	M	J	J	A	S
Captivator													
Invicta													

### Captivator

Virtually thornless canes, carrying sweet burgundy red berries. Mildew resistance and very cold hardy. This is one of the best dessert varieties available.

**1 bush 93108 £12.50**

### Invicta

Large oval berries with smooth skin, that ripen to pale yellow. Flavour when green and ripe is excellent. Very vigorous and will soon reach its full bush potential. Mildew resistant.

**1 bush 93009 £12.50**

# Loganberries

Large cone-shaped berries which are sweet and rich in flavour. Virus free they will establish quickly and fruit for many years. A delicious thornless hybrid berry. Excellent for a boundary fence or wall in full sun or light shade.

**2 litre pot 93043 £16.90**

## How to plant loganberries

Plant in well-drained but moisture retentive soil in full sun or partial shade between November and March. Grow on wires against a fence or a wall, or as single plant up a post. Space at least 2m (72") apart. Cut back to 25cm (10") after planting to promote fresh growth from the base. Crops July to August. Full growing instructions are included with every order.

# Rhubarb

Last orders 31 October 2023  
DELIVERY DATE Mid-November

### Fultons Strawberry Surprise

Outstanding variety, voted best for flavour with gorgeous bright red sticks. Crops from May through to September.

**3 crowns 91022 £15.25**

### Timperley Early

The earliest variety into production with red sticks at the base turning green higher up. Good for forcing.

**3 crowns 91005 £15.25**

### Victoria

The traditional variety, first introduced in 1837. Excellent flavour and high yielding.

**3 crowns 91006 £15.25**

**OR choose one crown  
of each variety  
Code 91007 £15.25**

# Blueberries

We recommend two blueberries for cross pollination.

## Blue Crop

Very resistant to spring frosts and drought tolerant. Large light blue berries gather in clusters, often bending the bushes under the weight of the fruit.

1.5 litre pot 93024 £17.10

## Brigitta

Large firm berries are gathered in loose clusters, very tasty and richly flavoured with a crisp texture.

1.5 litre pot 93109 £17.10

## Chandler

Abundant, juicy, delicious fruit. Enormous firm berries are produced from the beginning of August until mid-Sept. We recommend two plants to help with pollination.

1.5 litre pot 93067 £17.10

## Earliblue

Big light blue, mildly flavoured sweet berries hang in medium size clusters. An attractive shrub bearing masses of sweetly scented creamy-white flowers.

1.5 litre pot 93025 £17.10

## Pink

In spring the plant produces small bell-shaped flowers with a pink hue that change from white to a deep glossy pink. Grows to approx. 120cm-150cm tall. Winter hardy.

1.2 litre pot 93075 £17.10

## BLACK Ben Connan 🍷

Exceptional large fruit on compact bushes. They are up to 18mm diameter, and are carried on medium length strips. This early season selection is resistant to powdery mildew.

1 bush 93011 **£12.20**

## BLACK Ebony

Specially bred for its sweet berries. Early into production; normally first week of July. This outstanding dessert variety has large fruit with delicate flavour. It is resistant to powdery mildew and can be grown as a cordon.

1 bush 93029 **£12.20**

## RED Rovada

This late variety is now by far the most widely planted cultivar due to its high yields of superb quality fruit. Most outstanding variety currently available.

1 bush 93012 **£11.95**

## WHITE Blanca

The highest yielding white currant. Large berries and long trusses add to the attractiveness of this August fruiting variety.

1 bush 93014 **£11.95**

Asterina

Karaka Black

Loch Ness

## Asterina

Large bright shiny fruit the size of a pound coin. Excellent blackberry aroma and taste even when picked before fully ripe. First berries will ripen in mid-July.

2 litre pot 93112 **£13.40**

## Karaka Black

Attractive, shiny, firm dark black fruits. Lovely flavour. Although quite spiny, they are easy to pick. Named as finest variety by your local supermarket.

3 litre pot 93066 **£17.50**

## Loch Ness

Thornless bush that can produce up to 3.6kg of large firm glossy blackberries. Grown in a large pot on a sunny patio will certainly be rewarding.

2 litre pot 93026 **£16.95**

## Patio Trees

Delivery from end July 2023

NEW

### Pear 'Red William'

All the flavour of William bon Chretien but with a dark red skin. A pear with a compact growing habit which is suitable for container and bare soil culture. The fruits have the same very high sugar levels of the conventional William pear with the wonderful juicy flesh to match. Self fertile and easy to grow. Rootstock Quince C. 4.5 ltr pot

1 tree 🌳 94120 £45.00

NEW

### Fig 'Brown Turkey'

The best-known fig in the UK. Most crops per year in a warm summer, figs ripen in June and September. Delicious sweet flavour, easy to grow and very suitable for UK climate. Final Height of standard tree 3m (10') Will crop first year of planting. Grown on own roots.

4.5 ltr pots

Standard 🌳 94059 £45.00

Bush 🌳 94075 £45.00

NEW

### Cherry 'Sunburst'

An attractive tree both in flower or when laden with fruit. A slightly earlier cropping variety than 'Stella', from mid-July this dessert variety produces large dark red, almost black cherries of the sweetest flavour. The high-quality fruits store well for a short period after picking. Self fertile variety. Rootstock Hexaploid Colt. 4.5 ltr pot

1 tree 🌳 94116 £45.00

NEW

### Apricot 'Tomcot'

A modern Apricot that is more reliable than others, better suited to the UK climate than many traditional varieties. The spring blossom is produced in abundance, followed by large, sweet and juicy, orange fruits with a fabulous red blush. Crops ripen towards the end of July. Self fertile variety. Rootstock St Julien A. 4.5 ltr pot

1 tree 🌳 94117 £45.00

NEW

### Citrus 'Meyer Lemon'

Not a lemon but is instead a cross between a citron and a mandarin. As well as very prolific fruit producers, their showy white blossoms are incredibly fragrant and beautiful, with shiny, dark foliage. Rootstock Poncirus. 20cm pot (5.5ltr)

1 tree 🌳 94118 £49.50

NEW

### Satsuma

One of the sweetest and most cold-hardy citrus fruits. The small to medium-sized trees are low-growing with a spreading and droopy habit. The pretty white blooms appear in spring and are attractive to early pollinators. Rootstock Poncirus. 20cm pot (5.5ltr)

1 tree 🌳 94119 £44.50

Buy two trees or more and save £5. Please add TREE5 at the checkout or on the order form.

Dig in: 2 - 3 months, before flowering  
Nitrogen fixer - no  
Covers: 15 sq m/18 sq yd

Field Beans

## Field Beans

Sow: In rows September - November  
Soil type: Heavy  
Dig in: March - May, before flowering  
Nitrogen fixer - yes  
Covers: 6 sq m/7 sq yd

## Buckwheat

Deep rooting to break up subsoils. Also makes a lot of growth to increase humus content. Added benefit of attracting hoverflies which feed on greenfly. Dig or rotavate in before frosts for humus improvement. Fast into growth so good for weed suppressing.

**Pack for 15 sq.m. 80506 £1.75**

## Clover, Crimson

Best for sandy soils to add humus. Very attractive to bees if left to flower.

**Pack for 30 sq.m. 80508 £1.75**

**1kg for 300 sq.m. 31406 £10.95**

## Clover, White

Dense foliage for undersowing crops to build fertility and nutrients.

**Pack for 30 sq.m. 80510 £1.75**

## Fenugreek

Grown mainly to increase humus content. Quick into growth to suppress weeds but slower to flower than mustard.

**Pack for 15 sq.m. 80512 £1.75**

**1kg for 250 sq.m. 31408 £16.90**

## Field Beans

Sow in rows 20cm apart with about 10cm between seeds. Winter hardy.

**Pack for 6 sq.m. 80504 £1.75**

**2.5kg for 125 sq.m. 31432 £16.90**

## Mustard, Agricultural White

One of the fastest growing of green manures. It is susceptible to clubroot so do not use where this is a problem. Dig in before flowering which can be as little as 3-4 weeks to add humus to the soil.

**Pack for 25 sq.m. 80516 £1.75**

**2.5kg for 850 sq.m. 31414 £16.90**

# Get Fertilizing

## Chicken Manure Pellets

A completely natural organic fertilizer supplied in a weed free, dry, pelleted form for vegetables, flowers, shrubs and trees. Virtually odourless. Easy to apply. Delivery to mainland only. Sourced from broiler material rather than battery hen. NPK 4.7-2.5-3.

**15kg 46029 £15.00**  
**Buy 2 packs 46029MP £26.00**

## Sweet Pea Fertilizer

Especially formulated for the beloved sweet pea plant, use regularly to obtain best results and award winning bouquets. Tried and tested on our sweet pea fields. Granular fertilizer NPK 5-5-10

**1kg 45909 £6.20**

## Garlic Fertiliser

A blend of minerals specially formulated to produce strong, healthy and tasty garlic. Apply at 25-35g per square metre.

**300g tub 45120 £8.00**

## Onion, Leek & Garlic Fertilizer

Specially formulated granular fertilizer with essential nutrients, in the correct balance, to give tastier and increased yields of quality onions, shallots and garlic in easy to apply granules. These mini-granules are easy to apply at a rate of 50g per square metre. NPK 4- 6-4.

**3KG 45202 £10.50**  
**6KG 45222 £17.00**

### Phacelia tanacetefolia

Quick to start up and suppress weeds. Adds humus content to soil. Early sowings should be dug in after 2 months before flowering.

**Pack for 25 sq.m. 80518 £1.75**

### Rye, Grazing

Not to be confused with ryegrass. Extensive root system for improving soil structure. Digging in during the spring before the flower heads begin to form.

**Pack for 6 sq.m. 80520 £1.75**

**2.5kg for 150 sq.m. 31419 £16.90**

### Winter Tares

An annual fast growing vetch once established. Fixes nitrogen and is winter hardy. For the best weed suppression mix with Rye and broadcast seed, raking well afterwards, from March to May for digging in after about 2 months or July to September for digging in during the spring before flowering.

**Pack for 10 sq.m. 80524 £1.75**

**2.5kg for 100 sq.m. 31423 £16.90**

### Overwinter Mix

Growing a nitrogen lifter and fixer is the best way of improving soils over winter. Cereal rye and vetch are excellent companions and usually very reliable.

**Pack for 16 sq.m. 80527 £1.75**

### Summer Quick Fix Mix

The purpose of this is to build soil nitrogen. A fast growing annual mix that is best sown into warm soil. It should be broadcast or shallow drilled at no more than 10mm.

**Pack for 60 sq.m. 80528 £1.75**

### Mustard

Sow: Broadcast March - mid-September

Soil type: Fertile

Dig in: 1 - 2 months, before flowers

Nitrogen fixer - no

Covers: 25 sq m/30 sq yd

### Phacelia

Sow: Broadcast March - mid-September

Soil type: All

Dig in: 1 - 3 months, before flowers

Nitrogen fixer - no

Covers: 25 sq m/30 sq yd

### Rye Grazing

Sow: Broadcast August - November

Soil type: All

Dig in: Early spring before flowering

Nitrogen fixer - no

Covers: 6 sq m/7 sq yd

### Winter Tares

Sow: March - May/July - September

Soil type: Heavy, not acid or dry

Dig in: 2 - 3 months, before flowers

Nitrogen fixer - yes

Covers: 10 sq m/12 sq yd

### Overwinter Mix

Sow: Mid-September to mid-Oct.

Soil type: All

Dig in: April/May before flowering

Nitrogen fixer - yes

Covers: 16 sq m/19 sq yd

Mustard

Phacelia

Rye, Grazing

Winter Tares

### Summer Quick Fix Mix

Sow: May to July

Soil type: All

Dig in: After 10 wks

Nitrogen fixer - yes

Covers: 60 sq m/71 sq yd

# Feed Your Plants

## Original Phostrogen Plant Food

**40 can pack (approx. 400g) 45103 £7.00**

**80 can pack (approx. 800g) 45104 £10.00**

### Q4 Pelleted

Originally developed for the commercial grower, Q4 has proved to be an outstanding general purpose fertiliser for use on a wide range of crops. Apply throughout the growing season. Contains all the vital plant foods and trace elements essential for vigorous growth, abundant flowering and ripening of fruit.

**900g 48154 £6.00**

### Blood Fish and Bone

Contains the three major nutrients essential for strong and healthy growth. Encourages rich green foliage, improved ripening of fruit and vegetables and gives a slow release phosphate to boost roots.

**2.5kg 45915 £10.20**

## Vegetable Boost Concentrate

Enhancer that increases plant productivity through nutrients and water use efficiency. Treats over 40 plants.

**60g 46069 £5.00**

## Epsom Salts

Particularly beneficial for tomatoes and house plants, use as a base or liquid feed. Apply as necessary, full instruction are supplied.

**1.25kg 48155 £7.20**

## Seaweed Meal

Use as a winter soil dressing for clay or sandy soils. It decomposes to form essential humus, creating a rich and friable mixture. Can also be used as a highly effective compost activator and lawn dressing. 150g per square metre.

**5kg 45917 £16.00**

## Rock Dust

Rock dust is 420 million year old volcanic rock. Finely crushed to release a wide range of minerals and trace elements. It boosts the organic fertility of soil and compost to grow higher yields, healthier fruit, vegetables, flowers, trees, lawns and pastures. Full application details and benefits available on request.

**20kg 46055 £15.75**

# Autumn planted garlic... it tastes great...

**Carcassonne Wight**

## **Carcassonne Wight (hardneck)**

Exceptional, pink cloved hardneck showing great vigour in UK climate. Good skin cover, great strength and carry through coupled with superior (in our opinion) bouquet and character. Approx. 8-12 cloves per bulb. 2 bulb pack.

**31627** £6.50

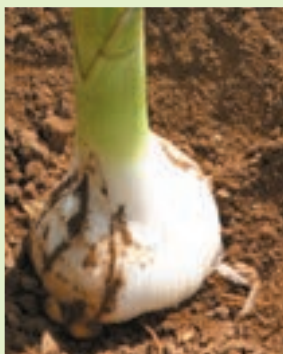

## **Caulk Wight (hardneck)**

Selected from the best purple stripe garlic found in Russia and Eastern Europe. Large cloved, easy peeling and vigorous. They grow particularly well in our relatively soft UK climate, north or south but can withstand temperatures down to -20°C. Once dried the outer leaves fall away to reveal the most beautiful marbled purple striped bulb. Ideal for planting November to January. Harvest in June. Approx. 3-8 cloves per bulb. 2 bulb pack.

**31645** £6.50

**Caulk Wight**

**Elephant**

## **Elephant**

Fresh, juicy, mild sweet flavour. Ideal for baking and roasting. Each bulb is approx 12.5-15cm (5-6") across. Not a true member of the garlic family, closer to leek, which it bears a close resemblance in flavour. 10 cloves.

**31615** £12.40

## **Kingsland Wight (hardneck)**

Bright white skins with fierce and spicy flavours which are the signatures of this hardneck from Czech Republic with plump purple cloves. One of the very hot and strong varieties commonly planted in the UK. Autumn planting. Approx. 8-10 cloves per bulb. 2 bulb pack.

**31647** £6.50

**Kingsland Wight**

It is easy for any gardener to grow good garlic. It grows well over most of the UK provided it is grown in a free draining soil, that is not too acid (pH levels should be over 6.7) and kept well watered and weed free.

## **Softneck versus Hardneck**

There are two distinctive types of cultivated garlic. Softneck is easier to grow, has plenty of cloves and stores well. Hardneck produces fewer but larger cloves and because they have a thinner skin have a shorter shelf life. It also produces flower stalks as part of its natural growth.

# and it's good for you

## Maddock Wight (softneck)

White skinned juicy cloves, good keeping quality and excellent flavour. 8-10 cloves per bulb. 2 bulb pack.

**31649** £6.50

## Mersley Wight (softneck)

A classic "Silverskin" type, ideal for late winter or spring planting. One of the best for keeping qualities, it can be stored up to June the following year. Mersley Wight has outstanding vigour and is larger and bolder than similar types. Ideal garlic for the UK gardener. Ready for harvest end of July. 2 bulb pack.

**31644** £6.50

## Provence Wight (softneck)

Large white bulbs with purple streaks that approach Elephant garlic size. Large fat cloves, like many Mediterranean types, responds to heavy watering in the months before harvest. Warm subtle flavours. 2 bulbs.

**31625** £6.50

## Rhapsody Wight (softneck)

A robust early purple garlic that produces large bulbs. Originating from the village of Cadours in South West France. Wonderful, zingy flavour when harvesting in June. 5-12 cloves per bulb. 2 bulb pack.

**31648** £6.50

## Rose Wight (hardneck)

With a rosy pink and white outer skin and deep pinkish cloves, this garlic has a strong flavour. Originally from northern Spain, it does well in UK conditions. Plant September – November, Harvested: June 2 bulb pack.

**31646** £6.50

## Solent Wight (softneck)

An improved selection of Solent Wight, producing larger quality bulbs than many will have thought it possible to grow. Long keeping to March and beyond next year. Can be planted in spring as well as autumn. An aroma and bouquet without compare - giving excellent length and strength. Approx 30 cloves per 2 bulb pack.

**31620** £6.50

**Garlic, Onions and Shallots will be despatched together as soon as possible.**

**BULBS ARE AS DUG**  
Delivery from mid October onwards.  
Sorry, no garlic available after  
28 February 2024.

# Gourmet Mushrooms

Please note that orders for mushrooms are sent separately from other goods

## Plug spawn

Fifty wood plugs are the perfect way to inoculate a 1m hardwood log. Your first crop will come around 1 year later. After the initial flush, harvests can appear every 3-5 months, for up to 8 years in the cases of some mushroom varieties.

## Pink Oyster

With a strong meaty flavour, the pink oyster mushroom is a great meat substitute that is high in

protein and fibre. More resilient in the summer months, the brightly coloured caps will bring a cheerful addition to any kitchen or garden space.

*Outdoor Use: Spring-Summer*

*Indoor Use: All year*

**47020 100ml(P0) Grain Spawn £7.99**

**47021 1L (P0) Grain Spawn £17.99**

**47024 Pink Kit £19.99**

## Blue-Grey Oyster

A fast growing strain of the oyster mushroom, the Blue-Grey will persevere through all

seasons to bring you multiple clusters of elegant, pearly grey mushrooms.

With a strong earthy flavour and versatile forms, this one is a fan favourite.

*Outdoor Use: All year*

*Indoor Use: All year*

**47025 100ml(P0) Grain Spawn £7.99**

**47026 1L (B0) Grain Spawn £17.99**

**47028 50X(B0) Plugs £11.99**

**47029 Blue-Grey Kit £19.99**

## Grain spawn

Use grain spawn at the ration 1L per m<sup>2</sup> in outdoor beds or mulching. This allows for strong colonisation and fruitful harvests. Alternatively, a 100ml bag is perfect for smaller scale projects, such as a coffee ground grow in buckets.

## Yellow-Gold Oyster

A radiant shade, the yellow caps grow tightly together bringing you a plentiful harvest. It has a

slight citrus flavour, with a sharper taste profile than other gentler strains. It is ideal for summery pasta and salads, despite its ability to also grow through colder autumnal months.

*Outdoor Use: Summer*

*Indoor Use: All year*

**47030 100ml(YG) Grain Spawn £7.99**

**47031 1L (YG) Grain Spawn £17.99**

**47034 Yellow-Gold Kit £19.99**

## White Elm Oyster

The hardiest oyster variety on offer,

this Northern American variety has a clean white colour and strong woody flavour. It

is very resistant to competition and is great for beginners.

*Outdoor Use: Spring-Autumn*

*Indoor Use: All year*

**47035 100ml(WEO) Grain Spawn £7.99**

**47036 1L (WEO) Grain Spawn £17.99**

**47039 White Elm Kit £19.99**

## Kits

Kits come ready to go which contains the spawn fresh on arrival. They are the perfect way to make a foray into the world of mushroom growing, with clear instructions and access to many more resources.

## Shiitake Mushroom

Internationally renowned for its rich taste and iconic use in gourmet dishes, the shiitake mushroom is a great addition to any grower's garden. They have potential to fruit for up to eight years in hardwood logs.

*Outdoor Use: All year*

*Indoor Use: Not suitable*

**47040 50X plugs (SM) £11.99**

**47041 Shiitake Log Kit (SM) £17.50**

## Lions Mane Mushroom

Also known as 'The Hedgehog Mushroom', this prized medicinal mushrooms' iconic white

spines have a fabulous flavour. Best started in Spring or Autumn, Lions Mane fruits around summertime.

*Outdoor Use: All year*

*Indoor Use: Not suitable*

**47042 50X plugs (LM) £11.99**

**DELIVERY ALL YEAR.**  
However please check guide on each variety.

 Direct delivery for all mushrooms
